

PENTICTON FOUNDRY

ISO 9001:2008

Alloys

While we produce high quality ductile iron and gray iron castings, Pentiction Foundry specializes in abrasion resistant applications and solutions.

- High chrome white iron
- Ductile iron
- Austempered ductile iron
- Gray iron

Weight Spectrum

Pentiction Foundry is a jobbing type foundry, with the ability to produce higher volumes if needed. We pour small dimension parts and castings from 5 to 8000 pounds (2.26 kg - 3628 kg).

Services

Pentiction Foundry is a full-service foundry:

- Full machining
- Pattern making
- Assembly
- Painting
- Casting design
- Heat treatment
- Hydro testing

Markets

Some of the markets we serve include:

- Mining and crushing
- Hydraulic fracturing
- Pump
- Power transmission
- Oil/gas
- Oil Sands
- OEM
